Résumé (+ Use/Advantage): WO9509598 A make-up compsn. in the  
form of a water-in-oil emulsion  
comprises (a) 1-50 wt. % of  
silicone oil selected from  
volatile silicones and/or  
non-volatile silicones; (b) opt.  
up to 30 wt. % humectant; (c) 0.1-  
25 wt. % pigment; and (d) 0.01-0.8  
wt. % (active basis) of Al-Mg-  
hydroxystearate gelling agent.  
Also claimed is a make-up compsn.  
in the form of gel or emulsion.  
USE - Used esp. as blusher and  
foundation to moisturise the skin,  
balance the oil level of the skin  
and provide protection against the  
adverse effects of sunlight, wind  
and harsh environment. ADVANTAGE -  
The compsns. exhibit improved  
moisturising properties, together  
with improved skin feel and  
appearance and colour correction  
benefits, and reduced tackiness  
and shine. (Dwg.0/0)

Use / Advantage:
